INFORMATION MEDIA PERMISSION

Thanks to the willingness of several local media companies, the Preschools has been able to publish short articles about our program, thereby allowing us to “advertise” our program at no cost. Most articles focus on specific activities that we have done, such as our Model Seder and “Trike-A-Thon.” Media personnel request that we include pictures with these articles. In addition, we occasionally include pictures of children in the Temple’s regular newsletter, “View”, as well as in email correspondence with parents. Additionally, at times, Preschool parents request other parents’ contact information.

Please take a moment to sign this release for your child’s image or name to be used/not used in local public media, and for your own contact information to be shared with other Preschools parents.

Thank you!
